SKILLS

Programming Languages: JavaScript, TypeScript, HTML, CSS

Frontend Frameworks/Libraries: React, Styled Components, Ant Design, Bootstrap

Backend Frameworks/Libraries: Node, Express

Databases: MySQL, phpMyAdmin, MySQL Workbench 8.0 CE

Development Tools: Git, Visual Studio Code, Postman, AWS CloudWatch, GCP Logs

Project Management: Jira, Zoho Projects

PROFESSIONAL EXPERIENCE

Autonom8 Inc, Chennai - Client: Kinara Capital, Bangalore
Software Developer - Apps Team (Service-Based)

April 2022 - Present

- Developed and maintained the entire Collection Management System (**CMS**), including CMS Modules, Deposit Modules, and Collection Postings, enhancing daily collection processes for customers.
- Designed and implemented key user applications, such as Advance and Prepayment Applications, One Time Settlement Applications, Loan Disbursement, Swap Charges, and Foreclosure Collection.
- Utilized **front-end** technologies including **A8studio (React.js, Ant Design)** to create intuitive and efficient user interfaces. Employed a variety of programming tools and technologies, including **JavaScript**, Frappe, Ozonetel, Contaque, Sindesk, and Perdix API integrations, to build **back-end** functionalities.
- Provided ongoing CMS production support and managed month-end collection closing activities using Jira. Led LMS and CMS enhancement projects, handling project management and ticket resolutions in Zoho Projects.
- Participated in daily POD calls to update project status and progress, ensuring effective communication and project tracking.
- Currently working on CMS architecture changes to improve system performance and scalability.

Disigsquares Technologies Private Limited
Junior Software Developer

January 2021 - April 2022

- Developed full-stack applications, including creating databases in MySQL Workbench, implementing front-end with **React.js**, and back-end with **Node.js**.
- Integrated APIs and contributed to the main pages of the company website.
- Utilized technologies such as **Antd**, **Styled Components**, **Next.js**, and **TypeScript**.

Knila IT Solution
Back-End Internship

June 2020 - November 2020

- Completed projects involving **Node.js**, **MySQL**, and **APIs**, focusing on **REST APIs** and **CRUD operations**.
-
